

## Kestrel Club for young wildlife watchers

Welcome to the young wildlife watchers' section of the Hawk and Owl Trust

Meet KC, the wise kestrel who symbolises the young naturalists' section of the Trust.

The Kestrel Club is at the Trust's education centre at Sculthorpe Moor Community Nature Reserve near Fakenham, Norfolk, and meets once a month.

### **Kestrel Club**

For those unable to reach this centre, and for the times in between meetings, we have the online Kestrel Club, offering interactive challenges and ideas to encourage young naturalists to find out more about the world about them, and especially birds like hawks, owls, eagles and harriers, and the attractive and important role they play in the natural world.
