

## Conservation work on the Moor

### Projects Completed

The moor is a Site of Special Scientific Interest (SSSI) and part of the River Wensum Special Area of Conservation (SAC). This has been restored for the benefit of unusual flora.

### Fenland Restoration August 2006

#### Work in progress

As part of Natural England's Million Ponds Project, we have been awarded funding to regenerate the reed bed and wetland area. This work will start in January 2009.

### Wader Scrape in Wetland Area

#### Future Projects

Wing tagging and satellite tracking of marsh harrier chicks breeding within the Wensum Valley (subject to funding).

If you feel that you would like to help with the funding of these projects, please contact Nigel Middleton.
