

## Fungi

### Fungi at Sculthorpe Moor Reserve

*Scarlet Elf Cup*

Fungi recorded on the reserve:

- Honey fungus *Armillaria mella s.l.*
- Yellow fieldcap *Bolbitius vitellinus*
- Bitter beech bolete *Boletus calopus*
- Clustered toughshank *Collybia confluens*
- Common ink cap *Coprinus atramentarius*
- Glistening ink cap *Coprinus micaceus*
- Webcap *Cortinarius caninus*
- Wood pinkgill *Entomoloma rhodopolium (=nidorosa)*
- Poisonpie *Hebeloma crustiniform*
- Sulphur tuft *Hypholoma fasciculare*
- Amethyst deceiver *Laccaria amethystina*
- Fierce milkcap *Lactarius pyrogalus*
- Oakbug milkcap *Lactarius quietus*
- Orange bonnet *Mycena acicula*
- Frosty bonnet *Mycena adscendens*
- Angel's bonnet *Mycena archangeliana*
- Common bonnet *Mycena galericulata*
- Pale brittlestem *Psathyrella candolleana*
- Peppery roundhead *Stropharia pseudocyanea*
- Scurfy twiglet *Tubaria furfuracea*
- Silverleaf fungus *Chondrostereum purpureum*
- Blushing bracket *Daedaleopsis confragosa*
- Artist's bracket *Ganoderma applanatum*
- Birch polypore *Piptoporus betulinus*
- Turkeytail *Trametes versicolor*
- Collared earthstar *Geastrum triplex*
- *Bisporella sulfurina*
- Candlesnuff fungus *Xylaria hypoxylon*
- Scarlet elf cup *Sarcoscypha coccinea*
